# Ethics Repair List

## SUPER POWER RUNDOWN SERIES 3

The purpose of the Ethics Repair List is to return full power to a being by proofing him up against injustices, counter postulates, failed purposes, counter purposes and evilintentions across the dynamics.

These questions are asked in an unlimited way. In other words it applies to the whole track and whatever the person comes up with you simply two way comm it earlier similar to EP. This repair list is actually designed to set the person up to be able to do the actual super power process. It cleans up the whole track on the subjects of ethics and justice.

Do not take up unreading questions. This list of questions is assessed like a regular repair list except then when you get a read you stop and handle the question and its charge, then repeat the same question to ensure no further reads or charge and then carry on with assessing the list. The list does not have to be F/Ning through the whole list. Handle protest or false reads accordingly.

ADDITIONAL DATA

“DOUBLE ROD”

This was found at Tr 25,355; Tr 28,670 and finally found and run at Tr 28,865.

DURATION: 1/2 second - corrected to 1/8 second.

INCIDENT: Consists of a long shiny black rod moving in from left to right. Then somehow it is like two rods, or one rod with a split in the middle, the left one being white and revolving forward, the right one being black and revolving backward. Then they both disappear forward and upward.

EXPERIENCE: There is a tremendous feeling of EXCITEMENT attached to this incident.

It has a sort of feeling attached to it as if one was being as if it was being squashed between the two revolving rods.

THE ACTUAL SUPER POWER PROCESS

Super Power Rundown Series 5

The final step of the Super Power Rundown is to give back to the person his full potential power as a being. All prior steps on the Super Power Rundown have been designed to get a person into a state wherein he is set up to regain his ability to handle infinite power. These processes are run just like any other process with full F/N, Cog VGLs as the EP. If the person goes exterior continue to run the processes. If there is a dial wide F/N continue to run the process. The only time you would end off the process or the session is if the person has a persistent floating TA.

At some point during the running of this series of processes the person will reach a state wherein they are speechless. They will laugh with wild abandon. Their TA will be floating! They will probably also be exterior and will be unable to communicate in words what they are experiencing. This is the end result of the Super Power Rundown. It is rare for this to occur prior to the running of the last flow of this series of processes, but if it occurs then acknowledge the win.

One thing the auditor must not do is interrupt the person while in the middle of this major win or during the laughter. Otherwise it will invalidate the win. The auditor simply maintains his TRs and lets the person have his win. Do not end the session until the laughter stops as this will also tend to invalidate the person and his win.

The laughter can go on for some time. Perhaps up to an hour. Be sure and just be there with the person during this win and not end the session until the laughter has subsided.

The following series of processes one runs on the Super Power Rundown:

1. Get the idea that you have infinite power.
2. Get the idea that another has infinite power.
3. Get the idea that others have infinite power.
4. Get the idea that you can cause yourself to have infinite power.
5. Get the idea that you have been given infinite power.
6. Get the idea that another has been given infinite power.
7. Get the idea that others have been given infinite power.
8. Get the idea that you have caused yourself to be given infinite power.
9. Get the idea that you can give another infinite power.
10. Get the idea that another can give you infinite power.
11. Get the idea that others can give others infinite power.
12. Get the idea that you can cause yourself infinite power.
13. Get the idea that you are infinite.
14. Get the idea that another is infinite.
15. Get the idea that others are infinite.
16. Get the idea that you can cause yourself to be infinity.

Make sure to run only the processes and check for interest. Do not run any process on the person in which he is not interested.

O.T. COURSE - PART ONE  
1 November 1966

The following do not have a Line Plot. They are implant incidents, and should be located and plotted on your Track Table. The dates given are sample dates and represent the approximate time period only. Run the basic of each, getting your own reaction to it.

THE ARROW Tr 30,026

This consists of two Targets with an arrow pointing into each, counter poised. The front target is white and the rear one is black.

The Targets with the arrows appear for 1/10th of a second, during which time it hits one way and then the other. It's terribly fast, so one made a picture to see afterwards what it was. Get the speed it did this. Get your own reaction to it. It's just a sudden appearance and disappearance. It wobbled in and wobbled out.

WOMAN Tr 25,980

A "Woman figure" appeared before one. Nothing happened. It just appeared and remained a few hours. It sort of "got in one's face".

WHITE-BLACK SPHERE Tr 25,090

This is a sphere on a pole. The sphere and pole are Black in front. White in back. It's based on the idea that a dethan "can't think two thoughts at once". It does not reverse.

HOT - COLD Tr 20,095

This is a pole with a split in it. The back split is hot, the front one is cold. Two temperatures. Duration is 1 1/8th seconds.

LAUGHTER - CALM Tr 19,670

This takes place in a cave. It is 7 1/8ths of a second in duration. It has screams of laughter, very wild, and calm. Calm = frozen numbers.

It is a pole with a split in it. Laughter comes from the rear half and calm from the front half simultaneously. Then they reverse. It gives one a sensation of total disagreement. The trick is to conceive of both at the same time. This tends to knock one out.

DANCE MOB Tr 18,992

The duration is 7/8ths of a second. There is a pole that pulls one in. One is caught on the pole. The actual incident is in connecting with this thing and trying to get off it.

The dancing begins after the actual incident, and consists of a mob dancing around one, chanting phrases (a text). In running this, get the phrases that are chanted.

Students are reminded that they must always note on three worksheet F/N and T.A. position when a floating needle occurs. This is an essential part of your admin. and it must be done.

FLOATING NEEDLES

No great significance should be placed on floating needles on the O.T. Course. Advanced Courses General Issue of 19 September 1967 reminds you to note down when a floating (free) needle occurs, and you should do this.

This does not, however, alter any tech of the O.T. Course.

PATTERN OF THE BANK

The apparent pattern of the bank is as follows:  
(Earliest) Run 1 I Part A - The "7's"  
Run 2 I Part A - The "7's"  
Run 3 I Part A - The "7's"  
Run 4 I Part A - The "7's"  
etc. for 10 "runs", total.

HOW TO USE A PLATEN

Each student must supply himself with foolscap paper.  
The platen is then laid aside the foolscap paper and you repeat the number on the actual foolscap paper.  
Number work sheet by page number of platen + consecutive letter.  
Page 1 of platen becomes Page IA + B + C of worksheet.

NEW  
OT 4

There are five PARTS. These occur in a row. This row of 5 parts is called a RUN.  
The first, earliest, of these is the "7's".  
The second, just above the "7's" is the Basic End Words.  
The third, just above the Basic End Words, is the Confusion GPM.  
The fourth, just above the Confusion GPM, is the Objects - hollow.  
The fifth, just above the Objects - hollow is the Objects - solid.  
After a RUN of A, B, C, D, and E we begin again with the "7's" for the next RUN.  
Therefore, the trick is always to run only the earliest run available and not get into later runs.  
The bank has 10 runs or 50 parts.  
None of these use a GPM Line Plot.  
They only contain what is given on the platen you are issued.  
The proper way to run it all is to get on with it. After 10 runs, you may have to go from Run 1 to Run 10 all over again anyway, to get any final bits. So your first running of the whole 10 runs may not be your final run.

**CLUSTER HANDLING**

- 1) Have PC or PreOT locate a "pressure \* area" that reads on the meter. (Vary - 'In and around' to 'Far away')
- 2) Get the location of the pressure area relative to the body.
- 3) Have the PC or PreOT put and hold his/her attention on the pressure area.
- 4) Assess the "L12 Type of Incident" list to the first reading item and indicate this to the PC/PreOT.

Accident	Electrical
Impact	Explosion
Injury	Implosion
Illness	Shot
Drug	Psychiatric
Shock	Lightning
Implant	Vacuum
Heat	Radiation
Burning	Collision
Crash	Hit
Freezing	Struck

- 5) Date to blow / Locate to blow the incident found.
- 6) Find out if completely blown, and if not, repeat 4 and 5 until pressure area is completely blown.

Note - If OTHI PreOT, complete any remaining BTs with OTHI procedure. If NOTS PreOT, complete any remaining BTs with NOTs procedure.

\* Could be also 'hollow spot', chronic somatics, 'emptiness', any persisting sensation.

**CHARACTER LIST**

Assess the subject of the group M6. The word is called or shouted very accusatively with the auditor looking directly into the PC's eyes. The meter read is noted. This word is called to restimulate the group; then the other items of the group are asked as questions M5. The identities of one group are handled in order of size of read. Then continue on with the next group, etc. When the whole list is handled, reassess from the beginning and handle each item as it comes up, reassess from the beginning and handle each item as it comes up, taking slowed or checked F/Ns as reads. Handle to persistent F/N on the whole list. Check at the end of each group if any beingness that was restimulated by the accusative identity was not on the list.

Handle each reading item "Who or What was a \_\_\_\_?" L&N, then O/W to blow.

Handling steps are not given with each line on the list since it is assumed that at this level of auditing the auditor will know the correct and standard handling of each and every line. The list can assessed method 3 or method 5 depending on the situation. For PreOTs handle per instructions for handling listing on PreOTs. The auditor can switch to more specialized correction lists such as the L4BRA, NOTS 24, etc. as needed.
